<b>Audience</b>		
<p>Lean canvas - Problem need to be well defined.            unique value - pt 3 - rephrase sentence.            minutes - name of IE mentors            GOOD Team Timeline.            overall sentence formation problem.</p>		
<b>Visual design</b>		
<p>proj proposal 4 minutes - show w/o download option            photo wall after proj overview are besides.            meeting minutes - seen 2 times on page, remove one.            Picture of Jizhou not clear.            Team Timeline use dates abbreviated. No navigation aids.            * If I view the website on mobile phone, half of the content of the website will have background image, which will affect reading</p>		
<b>Text-based design</b>		
<ol style="list-style-type: none"> <li>1. Format of text is clear and readable</li> <li>2. Short and clean paragraph structure and displaying.</li> <li>3. Appropriate hypelinks</li> </ol>		
<b>Audio/Visual Features</b>		
<ol style="list-style-type: none"> <li>1. No audios or videos. (but it's fine with good text-based features)</li> </ol>		

Overall Visual impact  
① Clear and clean Easy and friendly to go through.  
② very well formatted.

Technical aspects  
① Issue when seeing on mobile

Content (including the appropriateness of the writing style of any text)  
① Executive Summary should be on the top coming first to audiences apart from team descriptions.  
② PDF pre-views could be directly readable for audiences  
③ About project - more clearer to understand;

Personality of site  
① Skin feature on background.  
② Good Navigation tabs

Navigation: Did you come across any instances where you couldn't answer one of these 5 questions: Where am I? Where can I go? How will I get there? How can I get back to where I once was? What do I expect will happen if...?  
① Leankits Link could be added

Any thing else, you can think of to improve the site?  
Group meeting minutes not needed.  
only IE mentor minutes added.  
Allowing to add comments
