

Retrospective Report

Team Name: Super-Ninja

Team ID: TA342

Date: 02/10/2018

<p>What went well in the last delivery cycle? The delivery went well with impressive comments:</p> <ul style="list-style-type: none">• Functions in the website works correctly• New functions for the website are added• For team work, the communication and team cooperate was excellent• The website is modified correctly based on the previous feedback	<p>What went badly in the delivery cycle?</p> <ul style="list-style-type: none">• Only have unit test, but missing the back-end testing• When writing the report, missing the abstract in the first page and the report title in cover page• Lots of pressure with other unit assignment and many tasks• The website still has some bugs need to be fixed
<p>What have we learnt in the delivery cycle? We got many useful information after receiving the feedback:</p> <ul style="list-style-type: none">• When writing the report, we need always proofread the report• More communication methods are needed among the team to improve the work quality• When the website is finished, always testing as we go• We need to keep improving from changes and feedback	<p>What would we to do to improve? There are many tasks we need to improve:</p> <ul style="list-style-type: none">• Always ask for help when we have some questions and problems• Testing should have more details and to be more comprehensive• When the bugs in the website are fixed, the web should be tested again• The team meeting should be more to discuss the feedback and improve the tasks.
